SUMMARY

Motivated and detail-oriented Computer Science Engineering student with a strong foundation in software development and problem-solving. Demonstrates the ability to design and build efficient, user-focused solutions with a focus on scalability and performance. Eager to begin a professional career in a growth-oriented organization, contributing effectively while continuously learning and adapting to new technologies. For details, [click here](#).

EDUCATION

2026 - present	Computer Science Engineering at Centurion University, Bhubaneswar	(CGPA: 8.4/10)
2022	Class 12th Some Board	(72%)
2021	Class 10th Some Board	(63%)

PROJECTS

Vehicle Rental System

[GitHub](#)

Designed and developed a full-featured web-based vehicle rental system to streamline the process of vehicle listing, booking, and user management. The application integrates a responsive frontend built using HTML, CSS, and Angular with a structured MySQL database to ensure efficient data storage and retrieval. Implemented core functionalities such as user authentication, dynamic vehicle availability tracking, and booking management, resulting in a smooth and intuitive user experience. The system was structured with a focus on scalability, clean UI design, and efficient handling of user interactions.

Lost and Found Website

[GitHub](#)

Developed a responsive web application aimed at simplifying the process of reporting and recovering lost items within a community. The platform enables users to post, search, and filter lost and found entries through an intuitive interface built with HTML, CSS, and JavaScript. Designed the system to handle structured data efficiently, ensuring quick access and real-time updates for item listings. Emphasis was placed on usability, clear navigation, and seamless interaction, making the application practical and accessible for everyday use.

SKILLS

Programming Languages	Java, Python, C
Web Technologies	HTML, CSS, Angular
Database	MySQL, MongoDB
Core Concepts	Data Structures, Problem Solving, Basic DBMS
Tools & Platforms	Git, GitHub

CERTIFICATIONS

- Software Project Management – NPTEL (SWAYAM), Government of India
